Actions implemented in order to prevent/limit COVID-19 spread

BULLETIN

Considering :

- The Public Sanitary System and the Romanian Government instructions, valid at national level, regarding the measures that need to be taken in order to limit the COVID-19 spread
- ASF Press Bulletin no. 1805/13.03.2020
- 1. ARGUS SA, with headquarters in Constanta, Industriala Street no. 1, Constanta County, with VAT RO1872644, Trade Register Number J13/550/1991, informs the shareholders that the company's activity is taking place under normal conditions and until the present report it wasn't affected by the COVI-19 evolution spread.
- 2. The actions implemented in the company in order to prevent/limit the COVID spread and to minimize the effects for the company's activity:
 - Considering the current situation generated by the Covid-19 pandemic and the Emergency Situation declared by the Romanian State, the company's management constituted a Crisis Committee that analysed the current situation and established a plan of measures accordingly with the recommendations and instructions received from the authorized state institutions in order to prevent and minimize the contamination risk with Covid-19 amongst its employees.
 - At the Plan of Measures an Implementation Program was added at company level by drafting an applicable training plan, for all the professional categories from the company.

- Its a permanent monitorization to insure that the measures taken are respected and also new prevention measures may be taken, in order to achieve the objectives.
3. During 12 – 16.03.2020 the first urgent measures recommended by the authorized institutions were implemented, from which we mention:
- Necessary materials and equipment in order to limit the Covid-19 spread were given to the employees.
 - Movement of the employees between departments (exceptions only for emergency interventions at installations and machineries, and only under the coordination and supervision of the department Heads that all hygiene conditions and anti-contamination protectio, established at the company's level, are respected).
 - We have recommended to our raw materials and materials suppliers, state or private legal entities that relate with our company that the interactions should be, as it is possible, indirectly (by mail, fax or phone).
 - In order to ensure the continuity of the production, to prevent possible difficulties in the supply process with raw materials and materials specific to our line of production, the executive management decided to supply this on stock. The stock must ensure the necessary until the end of June 2020.

Argus SA will be in contact and will collaborate with all the state institutes that regulate, legislate and coordinate the actions taken at national level in order to diminish Covid-19 spread.

We ensure all of our shareholders that we'll monitor that all measures we have taken will be respected and that we will improve this action plan to prevent and minimize the risk of Covid-19 contamination, depending on the future evolution of the virus. We also guarantee to our shareholders and our customers (refined and bottled sunflower oil) that the quality of our products isn't affected by Covid-19.
