Important events to report: Signing of the contract with the Bucharest Stock Exchange for joining the Growth Market

Connections Consult S.A. informs investors and the market about the signing of the contract with the Bucharest Stock Exchange (BVB) in order to join the **SME Growth Market**, the new segment of the Multilateral Trading System (MTS), which is to be launched on **November 20, 2026** and which is dedicated to companies that seek to consolidate their presence on the capital market and support the successive stages of development.

The approach reflects both Connections Consult's support for the BVB initiative to restructure and develop SMT, and the company's commitment to continue its stock market maturation path, in view of a possible future admission to trading on the Regulated Market.

The management of Connections Consult appreciates the contribution that the new Growth Market brings to an appropriate framework for companies with ambitious development objectives, by combining consolidated standards of corporate governance, transparency and communication with investors with mechanisms adapted to the financing needs of growing issuers.

In this context, **Connections Consult intends to capitalize on the opportunities offered by the new market framework, including the flexibility applicable to certain market operations**, in order to sustain the growth rate targeted by its development strategy. At the same time, the company aims to strengthen visibility among investors, including institutional investors, and develop a stronger relationship with the investment community.

Through this initiative, Connections Consult reaffirms its commitment to long-term development through the capital market and expresses its support for BVB's efforts to consolidate a stock market ecosystem capable of meeting the needs of Romanian entrepreneurial companies.

In addition to this initiative, Connections Consult will collaborate with Goldring S.A., as an Authorized Consultant, to strengthen a framework of good practices in terms of corporate governance, transparency and investor relations. This collaboration is part of the company's strategy of stock market maturity and gradual preparation for the requirements of the Regulated Market.

Temporary suspension from trading

In the context of the technical operations necessary for the transfer of the shares of Connections Consult S.A. on the Growth Market, **the trading of the company's shares (stock symbol: CC) will be suspended starting with November 18, 2026**, prior to the launch of the new market segment, scheduled for November 20, 2026.

The suspension is of a technical nature and is determined exclusively by the procedures related to the transfer to the new market segment. The resumption of trading is envisaged with the launch of the Growth Market, on **November 20, 2026**, subject to the completion of the applicable technical procedures and in accordance with the decisions of the BVB.
