Subscribed and paid share capital: 61.821.630 RON

The multilateral trading system: SMT BVB

Implant Expert DSO SA (the "Issuer") informs the bondholders that on August 24th is the opening of the nineteenth dental centre from the network, in Bucharest, after an investment of 800,000 euros. The clinic is located in Piața Alba-Iulia and it is the second largest of the network's eight dental clinics in the capital. The space has 740 square meters and accommodates twelve offices, operator theatre, radiology and area dedicated to children's services, which integrate gamification technology, according to the concept of "Space Academy" Dr. Leahu.

"We are preparing for an inflow of patients with simple cases, we are investing in as many dental practices as possible to treat them and we continue to lobby for the settlement of services by the State or the employer, through dental subscriptions. In the business model we are shifting the focus from treatment to prevention, because more than half of children and young people under the age of 17 do not access the treatment recommended by the dentist and the consequences can be seen in adult life, when dental implants are required in most cases. Even though we have built the network and we have the utmost experience in treating complex cases, we believe that industry leadership is also expressed in terms of investments in inexpensive cases treatment, but which ensure long-term dental health", states Dr. Ionuț Leahu, CEO and founder of Dr. Leahu Dental Clinics Network.
