**Important events to report:** Approval of the Aminotop foliar fertilizer line in Brazil and start of production at the Norofert factory in Chapecó

The management of Norofert S.A., hereinafter referred to as the Company, informs the market that Norofert do Brasil LTDA has obtained approval from the Brazilian authorities for the Aminotop foliar fertilizer line. Starting with the first half of June 2026, the Norofert factory in Chapecó, Brazil, is authorized to begin fertilizer production, on which occasion the first quantities will be sent to Brazilian farmers.

Obtaining the approval represents an important milestone in the Company's international expansion strategy and allows Norofert do Brasil LTDA to begin its commercial activity in one of the largest agricultural markets in the world, with an area of over 96 million hectares of arable land.

The production facility in Chapecó, with a capacity of 15,000 liters per day, was built according to the same technological concept validated by the implementation in South Dakota, USA, using bacteria produced in the research laboratory in Filipești de Padure. The total investment in the construction of the factory amounted to 500,000 euros and was financed equally by Norofert S.A. and the Engenutri Group, the two partners holding equal shares in the share capital of Norofert do Brasil LTDA.

Additional details regarding Norofert do Brasil LTDA's activity and plans for 2026 and 2027 will be presented during the "Investor's Call, Brasil Edition" videoconference, scheduled for June 4, 2026, 5:00 p.m. Link to register [HERE](#).

CHAIRMAN OF THE BOARD OF DIRECTORS

Vlad Andrei Popescu
