Important events to be reported: Signing a Power Purchase Agreement (PPA)

The management of Simtel Team S.A. (the "Company") informs the market that, after the completion of the photovoltaic plant at Salonta, the Company signed a Power Purchase Agreement (PPA) with GES Furnizare S.R.L. ("GES"). GES is part of Simtel group, the Company holding a 62% stake in it, having as object of activity the supply of electricity.

PPA type contracts represent long-term agreements for the supply of electricity from renewable sources, having the advantage of predictability of costs, as well as the security of supply of the necessary volumes.

The contract was concluded for a period of 5 years and 5 months, during which the Company will deliver to GES an annual amount of electricity of 6,500 MWh which will be subsequently supplied by GES to the final clients in its portfolio.

In the first 6 months after the start of its activity, GES consolidated its position on the market of electricity suppliers, having a portfolio of more than 30 customers, to whom it will supply a quantity of energy of approximately 100 GWh during 2024.

The conclusion of this contract reflects the advantages of the ecosystem built by the Company, the electricity produced in the Salonta park having secured a long-term beneficiary, while GES consolidates its sources from which it can deliver green energy to its own customers.

SIMTEL
EMPOWERING A GREEN FUTURE

The Company is considering the conclusion of PPA type contracts for each of the photovoltaic parks that will be built by the Company. Depending on the specifics, capacity and completion date of each park, the Company will determine with which partners these contracts will be concluded.
