**Fundamentare economică:**

De la momentul listării și până în prezent, Compania MedLife SA a fost o companie achizitivă, cu rezultate excelente atât în ceea ce privește achiziția de noi companii, cât și din perspectiva proceselor de integrare aferente acestora.

Drept urmare, Grupul MedLife a înregistrat creșteri în cifra de afaceri de peste 20% în medie în ultimii 5 ani, determinate atât de dezvoltări organice, cât și de achiziții.

Există în continuare oportunități relevante în piața care ar permite Grupului să mențină tendința curentă de expansiune și consolidare a pieței de servicii medicale, concomitent cu captarea de profitabilitate suplimentară.

Pastrand o abordare prudentă, ne dorim să evaluăm aceste oportunități, fondurile suplimentare urmând a fi utilizate cu precădere pentru derularea proceselor de M&A, cu focus pe achiziții de companii profitabile

(EGMS) of 22 December 2023 / 23 December 2023

Related to the authorisation of the Board of Directors to negotiate with Banca Comercială Română S.A. and with other credit institutions that are part of the syndicate the extension of the credit limit of up to an additional amount of EUR 50 million in connection with the Syndicated Credit Facility Agreement entered into on 13 December 2022 and the related financing documents.

- Law no. 24 / 2017 on issuers of financial instruments and market operations, republished;
- Articles of Association of Med Life S.A.

**Economic basis:**

Since listing until now, MedLife SA has been an acquisitive company, with excellent results both in terms of the acquisition of new companies, as well as from the perspective of their related integration processes.

As a result, MedLife Group recorded increases in turnover of over 20% on average in the last 5 years, determined by both organic developments and acquisitions.

There are still relevant opportunities in the market that would allow the Group to maintain the current trend of expansion and consolidation of the medical services market, simultaneously with capturing additional profitability.

Keeping a cautious approach, we want to evaluate these opportunities, the extension of the credit limit to be used primarily for M&A, with a focus on acquisitions of profitable companies that will largely

care in mare masura nu vor afecta indicatorii de profitabilitate si indatorare la nivel de Grup.

Ne pastram obiectivul curent de a corecta gradual profitabilitatea Grupului precum si gradul de indatorare calculat ca Datorie Neta la EBITDA. In acest obiectiv avem sustinerea multiplelor investitii derulate in ultimii doi ani si care vor livra rezultate importante in perioada urmatoare, cu o orientare puternica catre servicii medicale reziliente la perioade economice mai putin favorabile.
