Events after the preparation of financial statements

Events after the balance sheet date are those events, favorable or unfavorable, that occur between the balance sheet date and the date the annual financial statements are authorized for issue. They are presented in the notes when considered significant.

Events or uncertainty factors that affect or could affect the company's activity

In the context of the current situation imposed by the state of war in Ukraine, the restrictive measures imposed on Russia and Belarus generate serious consequences and effects on the world economy, including regarding the uncertainty regarding the future of companies in many fields of activity, with implications on the indicators of the situations annual financials. As secondary effects of the war, we mention the increase in the prices of raw materials, delays in the supply of materials, the increase in the prices of fuels, electricity, gas, which ultimately leads to increased costs and a possible decreased profit. At the same time, there is the risk of increasing the duration of collection of receivables from customers, thus creating a blockage in the chain.

Signaled contraction in the financial market, generated in part by developments in the euro zone lately, could affect the Company's ability to access new loans and refinance those already obtained in terms and conditions related to past transactions.

Also, borrowers Company may be affected by low levels of available liquidity, which could affect their ability to repay debt when due, which will have an impact on the ability to forecast cash flows.

The Company can not predict all the events that would impact on the financial sector and any effects that would interfere with the financial statements.

The Company can not estimate the effects on the financial statements of future decreases liquidity in the financial market, the devaluation of financial assets or credit market contraction or increasing currency volatility.

However, the Company considers that, in the specific conditions of the market on which it operates, characterized by a strong specialization of the participants and a small number of them, the evaluation and management of the risk can be achieved by daily monitoring of the entry and exit flows of cash and by making short-term forecasts regarding net liquidity.

The company is not subject to capital requirements imposed from outside.
