

PRESS RELEASE

TeraPlast expands its logistics chain with a distribution center for the south-east of Romania

- **TeraPlast opened a new warehouse in Galati, which will serve the south-eastern area of Romania**
- **The location has a total area of 6,500 square meters, building and a concrete platform**
- **Together with the warehouse in Galati, TeraPlast has a total of 8 distribution centers: 7 in Romania and 1 in Hungary**

Bistrița, February 6, 2023

TeraPlast strengthens its geographical coverage in Romania by opening a new warehouse in the southeast of the country, in Galati. The unit represents a logistics center for fast and efficient supply and delivery for the counties of Galati, Brăila, Tulcea, Vrancea, Ialomița and Constanța. The warehouse has been operational since the beginning of this year.

The facility is located at the exit from Galati on the E87 (Barboși Station area), with quick access to the city ring road, a key aspect for the efficiency of goods transport. The chosen space is versatile, and the area continues to develop with an industrial park, and other distribution centers.

TeraPlast's activity in the new location benefits from optimal logistical conditions: 5,000 square meters of concrete platform, a newly built hall of approximately 1,500 square meters and the latest goods handling equipment.

„Proximity plays a major part in the logistics chain. Through the new location in Galati, we will be closer to the customers of the Installations business line in the southeast of the country, faster in deliveries and more accessible. TeraPlast partners find in our warehouse products for installation systems for water, natural gas, and sewage, but also for indoor installations, including NeoTer by TeraPlast floor heating system, or electrical installations systems. Our group is continuously developing, and the strengthening of the distribution force contributes to the consolidation of the competitive advantages of the Installations line” stated Mr Ovidiu Gurău, commercial director of TeraPlast.

The facility will make deliveries to TeraPlast customers in the region, but also represents a quick supply source for those who want to pick up goods directly from the warehouse.

TeraPlast currently has 7 own distribution centers on the territory of Romania. The warehouse in Hungary is also operational.

About TeraPlast Group

The Group is comprised of the companies TeraPlast, TeraGlass, TeraPlast Recycling, TeraBio Pack and Somplast. Starting July 2nd, 2008, TeraPlast SA – the parent-company of TeraPlast Group – is listed on the Bucharest Stock Exchange under the TRP symbol.
