Market where securities are traded	<b>Bucharest Stock Exchange, Main Segment, Standard Category</b>

**Important events to be reported:** Signing of a strategic partnership with Monsson

The management of Simtel Team S.A. (the "Company") informs the market regarding the signing of a strategic partnership by the Company with Monsson, the largest renewable energy project developer in Romania and Southeast Europe. The partnership aims to develop, construct, and sell photovoltaic and/or hybrid projects with a total installed capacity of approximately 150 MWp. Additionally, the partnership will focus on developing energy storage facilities with a capacity of up to 120 MWh.

To carry out these projects, the two companies intend to use their own financial resources, bank financing, as well as other funding sources such as green bonds and European funds.

The Company and Monsson will develop renewable energy projects using an integrated model that covers the entire project life cycle – from planning and development to construction, sale, and, in exceptional cases, long-term operation. This integrated approach enables both companies to ensure efficiency, reliability, and innovation in every project.

The project portfolio targeted by the two companies under this partnership can be implemented either as a whole or in distinct phases, depending on market needs and development opportunities. This flexibility will allow the two companies to dynamically respond to developments in the energy sector and adapt technical solutions to new challenges.

**SIMTEL**  
EMPOWERING A GREEN FUTURE

Moreover, the partnership will explore and implement energy storage solutions that support the balancing and optimization of electrical grids, thus addressing the growing national demand for energy stability and security.

Iulian NEDEA

Chairman of the Board of Directors
