1 Our business model: Affordable luxury

Modern cost-competitive winemaking

Purcari is positioned at the intersections of three themes:

- **Modern winemaking:** the company is a brand, as opposed to *appellation*-centric and runs a cost-efficient business.
- **Affordable luxury:** as an aspirational brand, Purcari wines are an example of affordable luxury, building on a heritage dating back to 1827 and ranking among the most awarded wineries in Europe.
- **Differentiated marketing:** the company is not afraid to be quirky about the way it approaches marketing, prioritizing digital channels and focusing on engaging content as opposed to traditional advertising.

1 Topping competition at engagement and quality

2 Key operational highlights for 2023

Ongoing revenue growth

- Revenues up 22% to RON 369.4m on higher volumes, better mix and select price increases, reaching the top-end of the guidance. Core Wine revenues +21% YoY, Ecosmart contributing +RON 30m.
- Purcari and Crama Ceptura performing strong +29% and 26% YoY, respectively.
- Angel's Estate contributing with RON 11.3m in sales. Amounting 3% of total Group sales.
- Solid traction in Romania, growing 35% YoY.
- Overall market weakness in China.

Sustaining strong margins, despite challenging environment

- EBITDA at RON 98.6m and Net Profit at RON 59.6m, delivering a 19% and 45% growth in 2023 vs Normalized EBITDA¹ and Net Profit¹ in 2022.
- EBITDA margin and Net Profit margin reaching the top-end of the guidance with 27% and 16% respectively.
- Margin performance despite higher financing costs +64% YoY, higher depreciation from Capex executed in prior periods +40% YoY, more expensive packaging materials and costlier wines stock from 2020-2021 vintages.

Active IR agenda

- #4 best performing among companies in BET index, with +69% increase YTD². Beating 2x BET Index performance of 32%.
- High liquidity of WINE share relative to market cap; maintained in FTSE Global MicroCap Index and included in MSCI Romania Small Cap Index as of August 2023 review.
- Paid dividend of 0.55 RON/share, with a 6% yield on announcement date. Ex-date on July 28th, 2023.

Developments at the latest added businesses

- Successful turnaround at Ecosmart, contributing at the Group level with RON 30m in revenue, RON 4.2m in EBITDA and RON 2.3m in Net profit, still having plenty room for profitability improvements.
- Angel's Estate contributing with 3% to the total Group sales, still negative net income though. Successfully implemented the first phase of the turning around plan: doubled the harvest yields, restructuring brand portfolio, re-negotiating commercial terms, introduced new Purcari SKUs to the Bulgarian market.

1) Excluding RON 28.2m one-off gain from bargain purchase of Angel's Estate in 2022

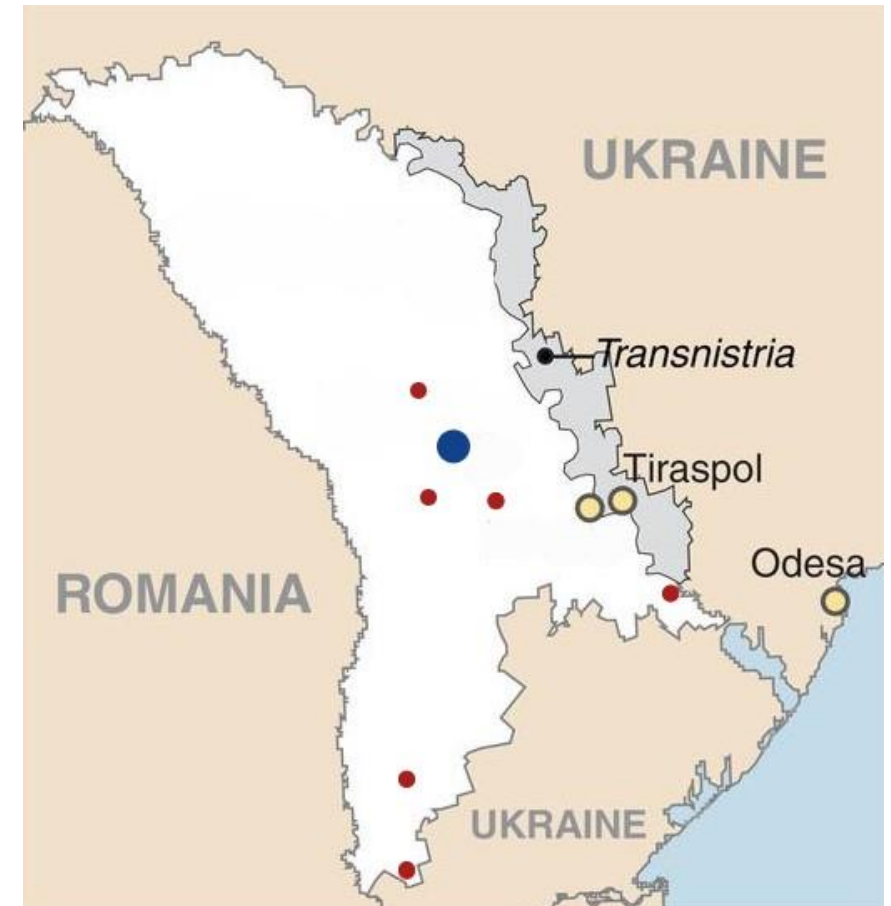

2) Source BVB, as of 29 December 2023;

2 Commentary on developments in Transnistria: “a nothing burger”

- **Stock sell-off**, ~8% down over 2 days at trough, driven by geopolitical-risk **commentary of low-level politician**;
- Commentary speculated on **Transnistrian Congress of Deputies of All Levels** asking for unification with Russia on February 28th;
- **Risk dismissed outright** by Moldovan government, Ukrainian security services, as lacking ground. In private conversations held by Group reps with **very well-informed reps from Western embassies** in Moldova, the issue was defined as a “nothing burger”;
- **Risk has not materialized at the said Congress**, confirming futility of such speculations;
- Transnistria has been a **frozen conflict, similar to North-Cyprus** situation, since 1992;
- Some **2/3 of Transnistrian exports go to EU markets**, while vast majority of population hold Moldovan and/or Romanian passports, though clearly pro-Russian leaning;
- **Transnistrian elites have strong vested interest to keep status quo**, not provoke Ukraine; **Russia has limited real levers** in region;
- There is **no land bridge between Russia or occupied territories in Ukraine with Transnistria**, while so called Russian peace-keeping forces count only ~1500 people in the region;
- There are **6 major water barriers** (including Dniro and Bug rivers) between closest Russian troops in Kherson region and Transnistrian region;
- Purcari Group has **no operational activity in Transnistrian** region.

- Overall strong performance of core WINE business, while incorporating negative effects from turnaround of newly added Angel's Estate.
- Waste Recycling segment turned profitable, maximum potential still to be achieved. Adopted a frugal approach in managing the business, focusing on building long-term partnerships.
- Overall contribution to Group level figures, with Revenue standing at 8% of total Sales. Ecosmart contributed with 4% to Group's EBITDA and Net profit. Margins still modest, having plenty room for growth.

2 Exceptional 2023 agricultural season: high-quality vintage and good yield

Good 2023 harvest

Own harvest and 3rd party purchases of grapes, million kg

Comments

- Strong own harvest despite unfavorable weather conditions of moderate rains and heat waves just before harvesting.
- Fulfilling required stocks from 3rd-party purchases; favorable price environment to positively influence future margins.
- Irrigation system functional at Purcari Winery vineyards as of July 1st, 2022 proved its efficiency, delivering high-quality grapes and volumes amid difficult weather conditions. Irrigation system roll-out at Cuza Vineyards (Bostavan) planned to start in 2024.
- Global wine production¹ volumes expected to be the smallest in the last 60 years. Sharp decrease in 2023 vs. weak 2022 harvest in Spain -14%, Italy -12%, Greece -45%. Romania and Bulgaria leading the growth by 15% and +7%.
- Smaller global harvest, may create a better pricing environment for producers like Purcari.
