Important event to be reported: The Resolution of the Ordinary and Extraordinary General Meeting of Shareholders dated 18.12.2025

Societatea Nationala Nuclearelectrica S.A. ("SNN") informs its shareholders and investors that the Ordinary and Extraordinary General Meeting of Shareholders took place at the headquarters of Societatea Nationala Nuclearelectrica SA, Iancu de Hunedoara Boulevard no 48, District 1, Bucharest, Conference Room 01.01., on 18.12.2025, at 10:00 o'clock for OGMS and 11:00 o'clock for EGMS.

Regarding the items 2-8 on the agenda of the Extraordinary General Meeting of Shareholders of December 18, 2025, we mention that SN Nuclearelectrica SA continues to develop the Small Modular Reactors Project in accordance with the corporate approvals to date and the shareholders' decisions. The project is in the second stage of FEED (Front End Engineering) studies, which will provide additional data on the feasibility and economics of the project.

Furthermore, the subsequent FEED 2 development phase will be carried out in compliance with the legislation applicable to nuclear projects and all corporate governance provisions, within the financial capabilities of SNN, similar to other projects developed by the company.

The Small Modular Reactors project, in addition to the refurbishment of Units 1 and Units 3 and 4, CANDU technology, will position Romania on the international map of the nuclear industry, through know-how and the development of the supply chain, at a stage of energy transition in which, globally and in Europe, modular reactors represent a solution for ensuring energy security and independence.

According to Wood Mackenzie, the global SMR portfolio has grown by 65% since 2021 to a planned capacity of 22 gigawatts. Nuclear projects and technological innovation, based on decades of operating experience, represent the future of energy, but their implementation can only be achieved with adequate government support, support that we are counting on in the next stages of the project's development and which represents a significant difference in progress and implementation, according to the development schedule.

The vote at the GMS on changing the shareholding structure of the RoPower project company represents the decision of the majority shareholder at this time.
