Market where securities are traded	BVB, Main Segment, Corporate Bonds, AUT26E & AUT29E

Important events to be reported: Availability of the 2025 Annual Report

Autonom Services S.A. (“the Company”) informs the investors about the availability to the public of the Annual Report containing the audited financial statements as of 2025, approved by the Ordinary General Shareholders Meeting dated 27.04.2026.

The report presents the financial results for the **19th consecutive year of double-digit revenue growth**, as well as the significant milestones achieved by the company in consolidating its position within the mobility market, during a year characterized by economic and political volatility.

For **2025**, Autonom reports **operating revenues of RON 939.7 million**, an increase of approximately 12% year-on-year, and an **operating profit of RON 150.5 million (+18.7% vs. 2024)**. This performance was driven by the evolution of all business divisions and a steadfast commitment to commercial and operational discipline. **EBITDA rose by 17.1% to RON 438 million**, confirming the robustness of the business model.

Net profit stood at RON 34.9 million, a level significantly impacted by exchange rate volatility. In accordance with accounting regulations, foreign exchange differences related to EUR-denominated liabilities are recognized immediately in the profit and loss account; however, this does not reflect the **natural hedge** provided by our long-term contract structure, which is also EUR-denominated. Our business model, centered on recurring revenues and long-term EUR contracts, ensures natural protection against currency fluctuations, and the negative effects of the exchange rate are expected to be recovered in the medium term.

A landmark financial event of the year was the signing of a **EUR 300 million syndicated credit facility** linked to sustainability targets—one of the largest transactions of its kind in the Romanian market.

The **2025 Annual Report** marks Autonom's second integrated financial and sustainability performance report, prepared in compliance with **European ESRS standards**, providing investors and partners with a comprehensive view of the sustainable value created by the company.

2026 represents a milestone year for Autonom: **20 years since its inception**. Over these two decades, the company has built an integrated mobility ecosystem with an extensive national presence, a fleet of approximately 18,000 vehicles, and a team of circa 600 colleagues.

Autonom Services SA remains committed to ensuring transparent and ongoing communication with its investors and all business partners.

The Annual Report is also attached to this current report as well as it can be accessed directly at: <https://www.autonom.com/investors>.
