

No. 38/ 04.02.2026

MARKET RELEASE

CONPET S.A. hereby notifies that, on 03.02.2026, a cyber-attack took place, which has affected the Company's business IT infrastructure.

It is noted that the operational technologies (the SCADA System and the Telecommunications System), haven't been impacted, so that the Company's core business, namely the transport of crude oil and rich gas via the crude oil National Transport System function within normal parameters, without any syncope in the activity.

Following this incident, the company's website www.conpet.ro is currently inaccessible.

Our company's specialists have implemented immediate remedial actions in order to mitigate this incident's effects and are maintaining ongoing collaboration with representatives of the national cybersecurity authorities to investigate the incident and to rapidly restore the affected infrastructure.

Moreover, on the same day, the company has also noticed The Directorate for Investigating Organized Crime and Terrorism (DIICOT), by formulating a criminal complaint regarding the incident that has occurred.

The company CONPET S.A. underlines that above mentioned situation does not affect the Company's operational activity, its stability or capacity of the entity to fulfill its contractual obligations.
