1. General Information and main activities

Oil Terminal is a joint stock company headquartered in Romania. The company's registered office is located in Constanta, 2 Caraiman Street.
The Company operates in accordance with Romanian laws and its Articles of Incorporation and is registered with the Constanța Trade Register under no. J1991000512136, holding the European Unique Identifier (EUID): ROONRC. J1991000512136 and Tax Identification Number: RO2410163.
Oil Terminal's LEI code is: 315700QNENQ53MELTT73, which represents the "Legal Entity Identifier".
The Company was established in accordance with the provisions of Law no. 15/1990 regarding the reorganization of state-owned economic units as autonomous regies and commercial companies, and Government Decision no. 1200/1990 regarding the establishment of joint-stock companies in industry, having the legal form of a joint-stock company.
By Emergency Ordinance no. 15/2001 regarding the regulation of the legal status of tanks, crude oil and petroleum product transport pipelines, pumping stations, and other related facilities and equipment, the Company was declared of strategic interest, and the State's interests for the shares held in the Company's share capital are represented by the relevant ministry.
Meeting the criteria announced by the Bucharest Stock Exchange (BVB), on January 30, 1998, OIL TERMINAL SA was listed on the stock exchange, First Category, providing investors with protection and safety, informational transparency, and the possibility to trade their shares on an organized market.
Following a new market segmentation applied by the Bucharest Stock Exchange, the shares of Oil Terminal have been included in the Standard Category as of January 5, 2015.
Oil Terminal, with over 125 years of experience in the field, holds a strategic position in the Black Sea Region, being the largest oil terminal operator for petroleum products in the Port of Constanța. Its core activity comprises the provision of services regarding the receipt, loading, and unloading of crude oil, petroleum, petrochemical, and liquid chemical products, as well as other finished products or liquid raw materials for import, export, and transit (NACE code 5224 – Cargo handling).
The Constanța oil terminal is located in South-Eastern Europe, at the crossroads of maritime transport corridors between Asia, Central and Western Europe, and the Near East.

Climate-related issues

OIL TERMINAL pays particular attention to climate-related aspects and their effects when providing a balanced and comprehensive analysis of the development and performance of the company's activity and financial position, considering the following infrastructure aspects:
Oil Terminal has 3 storage areas, with a total storage capacity of approximately 1.1 million cbm, of which:

- **North Storage Area** – decommissioned.
- **Port Storage Area**, located within the Port-berth 69, with a storage capacity of approximately 103,000 cbm, intended for the storage of petroleum products and liquid chemical products.
- **South Storage Area**, capacity of approximately 968,000 cbm, used for the storage of crude oil, gasoline, diesel, fuel oil.

Depending on the specifics, each storage area has the following infrastructure:

- tanks with capacities ranging from 1,000 cbm to 55,000 cbm, of metal construction, cylindrical, vertically placed - above ground, provided with protection belts, with fixed or floating roofs and with fire extinguishing installations. Some of the tanks are equipped with automatic radar type measuring installations for the height and temperature of the stored product;
- loading/unloading capacities for petroleum and liquid chemical products consisting of ramps, internal railways with a total length of approximately 30 km, equipped with loading/unloading installations;
- installations for loading products into tanker lorries;
- transport pipelines for loading/unloading to/from vessels for crude oil, petroleum products, petrochemicals, liquid chemicals and oils, with diameters ranging from 100 mm to 1000 mm;
- pump houses that can achieve flow rates between 300 cbm/h - 2,500 cbm/h;
- scales for tanker lorries and railway tankers;
- computerized metering installations located in the immediate vicinity of the diesel, gasoline and crude oil loading/unloading berths;
- laboratories equipped with equipment for performing specific physico-chemical analyzes;
- quay installations for loading products onto barges (crude oil, diesel, gasoline, fuel oil) and for bunkering vessels with light and heavy fuel in all oil berths.

The oil terminal operates 7 operational berths in the Port of Constanta with depths between 12.50 - 17 m, allowing the operation of vessels with a capacity of up to 150,000 tdw. The berths are equipped with vessel coupling installations for loading/unloading, hydraulically operated, with diameters of 12" and 16", respectively.

Oil Terminal is interconnected with Romanian refineries through the transport company Conpet SA Ploieşti for the transport of crude oil from the terminal to the refineries, through underground main pipelines that are part of the national transport system.
The oil terminal has connections to the national railway network, the road network and the Danube-Black Sea canal.

Aspects related to the impact of the company's main activity on the environment

In the current context of climate change and the commitment to a sustainable economy, the Company strategically integrates the principles of sustainable development into its operations. The Company has developed a Sustainability Strategy, publishes an annual Sustainability Report and utilizes environmental KPIs to track performance in key areas such as emission reduction, waste management, the protection of natural resources, and energy efficiency.
The implementation of circular economy principles is reflected in actions to optimize technological flows, reuse materials, and invest in infrastructure with a low environmental impact.

Environmental management system and regulatory compliance
The Company's activity involves a controlled environmental impact. Through the implementation of the Integrated Management System for Environment, Health, and Safety (EHS), the company acts constantly to prevent pollution, ensure resource efficiency, and comply with legal requirements.
The integrated management system is maintained following the recertification audit for the requirements of the SR EN ISO 14001:2015 standard – Environmental Management Systems.
Compliance with regulatory requirements involves adhering to legal provisions, ensuring that all machinery and equipment operate within designed parameters, following maintenance schedules, and maintaining a permanent focus on modernizing facilities.
In order to improve/maintain the quality of the environmental factors and to manage activity-generated waste, the Company has developed and implemented plans and programs:
- plans to prevent and mitigate the impact on environmental factors in the event of potential accidental spills or leaks of crude oil, petroleum, and petrochemical products. These plans were updated and submitted to the interested parties (zones, ABADL, DJM Constanța);
- Action plan on the separate collection of recyclable waste – updated and sent to the interested parties/zones;
- General construction and/or demolition waste management plan – sent to the interested parties;
- Program for the prevention and reduction of quantities of generated waste, including the analysis of waste management generated in 2025 and the progress recorded – updated during the reference period and sent to DJM Constanța.
Currently, environmental factors (water, air, soil, groundwater) are monitored in accordance with the requirements of the Environmental Authorizations and the Water Management Authorization:
- Water: Monthly monitoring of wastewater indicators discharged into the sewage systems of RAJA SA Constanța and the National Company Maritime Ports Administration SA Constanța, to maintain values within the limits imposed by current regulations.
- Groundwater: Weekly measurement of the piezometric level and the thickness of the product film, with the water mixed with petroleum product being extracted via vacuuming.
- Soil: Semi-annual monitoring of "petroleum product" indicators and metals. Facilities are subject to permanent visual inspections.
- Air: Quarterly monitoring of VOC (Volatile Organic Compounds) indicators at the South Storage Area (gasoline storage) and benzene/toluene indicators across all three storage areas.
Laboratory analysis results did not exceed the maximum limit values stipulated by regulatory acts and current environmental legislation.
During the reference period, laboratory analyses were carried out to determine the groundwater quality from the monitoring boreholes in the South and Port Storage Areas – the results were submitted to ABADL in accordance with the obligations provided by the Water Management Authorization in force.
Considering the legal requirements, following the construction of the lye loading ramp for trucks in the Port Storage Area, the documentation requesting the revision of the Environmental Permit was submitted to DJM Constanța aiming to include the aforementioned activity and the related installation.
During the reporting period, two gas analyzers were purchased, intended for monitoring air quality parameters in order to ensure compliance with environmental requirements.
Additionally, in the South and Port Storage Areas, compliant containers were purchased for the purpose of efficient selective waste collection, which were placed in the collection areas. Panels and posters with information regarding selective collection were placed in visible places to minimize the risks of mixing the different types of generated waste.
Data referring to local emission inventories have been entered into the Integrated Environmental System.
Permanent and efficient communication with the authorities is ensured, with their request being treated as a priority and within the established deadlines.

Investments, modernizations, infrastructure and increasing energy efficiency

Maintenance and repair works carried out contribute to improved technical performance, reduced resource loss, and optimized energy consumption. These actions support circular economy objectives by extending equipment life cycles and reducing the need for replacement. Furthermore, they support the reduction of pollution risks, environmental infrastructure improvement, and increased operational safety.
Repairs to technological and water supply pipelines: contribute to hydraulic efficiency and reduced energy consumption for pumping, while preventing water loss and soil or water contamination.
Repairs to administrative buildings and waterproofing renewal: contribute to increasing the energy efficiency of buildings and reducing the carbon footprint.

Prevention and control of major accident hazards:

Due to the volume of petroleum and petrochemical products handled, OIL TERMINAL SA falls under the scope of Law no. 59/2016 regarding the control of major-accident hazards involving dangerous substances, as an upper-tier establishment. The Company places major importance on the prevention and control of major accidents involving hazardous substances.
To comply with specific legislation and implement environmental measures established by SEVESO control authorities, the Company revised its Internal Emergency Plans for the Port and South Storage Areas, in accordance with the 2024 Safety Reports. These documents were evaluated and approved by ISU Dobrogea and the Internal Emergency Plan was tested.
These steps strengthen the capacity to respond to incidents and minimize risks to the environment and the community.

Transparency and periodic auditing:

Oil Terminal communicates openly with stakeholders, updating and publishing on its official website, as necessary:
- Public information per Law no. 59/2016 regarding the control of major-accident hazards involving dangerous substances: www.oil-terminal.com/Comunicare și mass-media/Informarea publicului SEVESO;
- Information on environment in accordance with Government Decision no. 878/2005 regarding public access to environmental information: www.oil-terminal.com/Comunicare și mass-media/Mediu;
Furthermore, during the reference period, *the annual program for the prevention and reduction of generated waste* and the recorded progress, prepared in accordance with Government Emergency Ordinance no. 92/2021 regarding the waste regime, was published and updated regarding the 2025 waste management: www.oil-terminal.com/Comunicare și mass-media/Mediu.
Operations are audited annually, both internally and externally, and are verified through thematic inspections regarding the environment, water management, and emergency situations. During the reporting period, 12 inspections were carried out by the authorities: 4 environmental protection inspections, 3 thematic inspections – verifying compliance with environmental legislation for oil product and hazardous substance warehouses, 3 SEVESO inspections and 2 water management inspections. No contravention sanctions were applied.
During the reporting period, an external surveillance audit was carried out. Following the audit of the Environmental Protection Department, no non-conformities or observations were issued.
Three minor environmental incidents were recorded, two of which were due to causes external to Oil Terminal SA. In these situations, specialized teams intervened promptly to identify the cause, contain the pollution, and remediate the affected areas, in accordance with the provisions of the plans for the prevention and control of accidental hydrocarbon pollution.

Through the continuous implementation of environmental protection measures, sustainable investments, and the adoption of circular economy principles, the Company actively contributes to the transition toward a responsible and competitive industrial model.

Competitive landscape in the Company's field of activity:

On the domestic market, Oil Terminal is the largest terminal in the Port of Constanța for the import and export of crude oil, petroleum products, and chemical products.
Regarding the entire range of services in the oil sector, the Company's main competitors are:
- The terminal in the Port of Midia
- The terminals in the Romanian Danube ports (Galați, Giurgiu, and Drobeta Turnu Severin)
- The Reni terminal
- Port operators Chimpex and Frial for the export and import of liquid fertilizers or vegetable oils.

The activity of the aforementioned competitors consists of:

- **The Port of Midia Terminal:**

The Midia Port terminal exclusively serves the Rompetrol Rafinare refinery.
Crude oil required for refinery processing is discharged via a single point mooring buoy (mono-buoy) located 8.6 km offshore in the Black Sea. Other raw materials for refinery supply and biocomponents (mixed with diesel and gasoline in proportions according to current legislation) are discharged through the oil berths located in the Port of Midia. Additionally, vessels/barges are loaded with a maximum of 20,000 tons of gasoline and diesel for export. This quantitative limitation is imposed by the maximum draft at the berths.

- **Terminals in Romanian Danube Ports (Galați, Giurgiu, and Drobeta Turnu Severin):**

Loading/unloading operations for gasoline, diesel, fuel oil, and bioethanol into/from river barges are carried out through the Danube terminals:

- Drobeta Turnu Severin Terminal: OMV Petrom and Petrotel Lukoil refineries conduct operations for loading gasoline and diesel from rail tank cars via direct transshipment into river barges, which then discharge in Danube ports in Austria, Slovakia, and Hungary. Bioethanol unloading operations from barges loaded in Hungary are also performed for the two aforementioned refineries.
- Giurgiu Port Terminal: In 2014, MOL constructed a new terminal where it unloads barges carrying gasoline and diesel loaded at the terminal, Rompetrol Rafinare, and other Danube ports in Hungary and Slovakia. A rail ramp for unloading gasoline and diesel from rail tank cars is planned for MOL (not yet commissioned).
- Galați Terminal: Small quantities of diesel and fuel oil, arriving primarily by rail tank cars from various operators, are handled here. The depot features broad-gauge (Russian-type) railway lines with a connection to Ukraine, eliminating the need to transship rail cars onto CFR-type axles for loading/unloading within this depot and bonded warehouse.

- **Reni Terminal:**

This terminal is a competitor regarding the turnover of cargo loaded in Serbian ports. It has a low storage capacity of approximately 5,000 tons, and the Danube draft only allows the operation of small-capacity vessels up to 5,000–6,000 DWT. For large quantities, customers utilize Oil Terminal's services.

- Export and import of liquid fertilizers and vegetable oils:

There are two port operators in the Port of Constanța that operate storage tanks: Frial, with a capacity of 15,000 cubic meters, and Chimpex, with 20,000 cubic meters. During 2016 and 2017, in response to market demand, both owners repurposed their tanks from liquid fertilizers to vegetable oils.
The import of Urean was handled by HGM Logistic, Fertistream Austria GMBH, Azrom Agro PT Srl and MBT Kimya Tarim Dis Ticaret Anonim Sirketi following the closure of the three Urean-producing plants belonging to Interagro.

Implemented Management Systems

Since 2012, following the application of Government Ordinance no. 119/1999 on internal/managerial control and preventive financial control, republished, with subsequent amendments and completions, and the implementation of Order no. 600/2018 approving the Code of Internal Managerial Control for public entities, OIL TERMINAL SA operates an internal managerial control system. Its design and application allow the management (the General Director and, as applicable, the Board of Directors) to provide reasonable assurance that the funds managed to achieve general and specific objectives have been used under conditions of legality, regularity, effectiveness, efficiency, and economy.
Based on the self-assessment results, as of December 31, 2025, the Company's internal managerial control system complies with the standards included in the Code of Internal Managerial Control. The degree of implementation and compliance of the internal managerial control system is consistent with the Summary Situation of self-assessment results as of 31.12.2025 (16 standards implemented) and with the statements in the Report on the internal managerial control system as of December 31, 2025.

Starting May 13, 2003, Bureau Veritas Quality Romania certified the management system implemented within the Company, which has been maintained to date and continuously improved in accordance with the requirements of the SR EN ISO 9001:2015 standard. Since 2018, the Company has been certified for the Integrated Management System, Quality, Environment, Occupational Health, and Safety.
The Company holds a quality management certificate issued by Bureau Veritas Certification. Between 22.04.2024 and 26.04.2024, the Recertification Audit was conducted in accordance with ISO 9001:2015.
During 14.04.-15.04.2025 Surveillance Audit no. 1 for ISO 9001:2015 was conducted, resulting in the maintenance of the certification.
During 16.04.-18.04.2025 The Recertification Audit for compliance with SR EN ISO 14001:2015 and SR ISO 45001:2018 was conducted. Following the external auditor's evaluation, recertification was proposed. The certificates were issued on 30.04.2025, valid until 29.04.2028.

In compliance with the requirements of SR EN ISO/IEC 17025:2018, in a 4-year re-accreditation was

performed by the National Accreditation Body, RENAR, for 23 laboratory tests, in accordance with SR EN ISO/IEC 17025:2018, obtaining the Re-accreditation Certificate for a 4-year period.
Internal audits by qualified auditors and external audits by the aforementioned bodies are scheduled to ensure compliance with management system requirements.
To maintain the Authorized Economic Operator status, the Company continues to comply with the Integrated Management (Quality, Environment, Health, and Safety) requirements.
In November 2016, AFER-ASFR verified the railway safety management system to evaluate and issue the railway safety authorization, in accordance with Directive (EU) 2016/798 and Delegated Regulation (EU) 2018/798. Verification of the system is conducted annually based on its documentation, resulting in the issuance of Operating Authorizations for the railway operator.
In December 2025, AFER-ASFR verified the system once more for evaluation and re-authorization of OIL TERMINAL SA.

As of December 24, 2019, based on AEO authorization no. RO AEOF 00000000224, the Company holds the status of Authorized Economic Operator for Customs Simplifications/Security and Safety, according to address no.31426 dated 19.12.2019, issued by the General Customs Directorate.
During 01.03.2023-04.05.2023, the re-evaluation of the compliance with the conditions and criteria that formed the basis for obtaining the status of authorized economic operator and the AEOC/AEOS - RO/AEOC/AEOS/00000000224/19.12.2019 Authorization took place, control carried out by the Bucharest Regional Customs Directorate. Following the re-evaluation, the Bucharest Regional Customs Directorate proposed the maintenance of the authorization, considering that the company meets the conditions and criteria for granting the AEO status - Customs clearances/Security and safety, and issued the AUDIT REPORT no. 48, registered at Oil Terminal under no. 5386/09.05.2023.
On 11.02.2022 the Ministry of Public Finance - National Agency for Fiscal Administration - General Directorate for the Administration of Large Taxpayers - Commission for the authorization of operators of products subject to harmonized excises issued the Fiscal Warehouse Authorization no. RO0070413DD02/03.02.2022 with validity from 01.03.2022 to 01.03.2027, on behalf of the authorized warehouse keeper OIL TERMINAL SA by which the re-authorization of the place located in Constanta, South Storage Area, Movila Sara, Constanța county - Tanks 18S and 38S as a fiscal warehouse for storing energy products - unleaded gasoline - E420 was ordered. This authorization allows the receipt, possession and dispatch, as the case may be, under a suspensive arrangement from the payment of excise duties.
On 30.03.2026 tank 38S was repurposed from gasoline to diesel storage, as per customs warehouse authorization no.ROCW1RODRVGLO-2019-QVC53780.

The main services provided by the company are:

- The receipt, storage, conditioning, and dispatch of crude oil, fuel oil, petroleum products, petrochemicals, and liquid chemicals for import, export, and transit;
- Technical testing and analysis in proprietary laboratories for handled products;
- Technical testing and analysis in proprietary laboratories for third parties;
- Maintenance and repairs for proprietary facilities and equipment;
- Leasing of owned assets;
- Wholesale trade of waste and scrap.

2. Significant Accounting Policies

The accounting policies applied in these annual individual financial statements are the same as those applied in the Company's annual financial statements as at and for the financial year ended December 31, 2025.

2.1. Statement of compliance

These condensed interim financial statements have been prepared in accordance with the Order of the Minister of Public Finance no.2844/2016 for the approval of the accounting regulations compliant with the International Financial Reporting Standards (''IFRS'').
These condensed interim financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting. These do not include all the information required for a complete set of financial statements in accordance with International Financial Reporting Standards ("IFRS") and should be read in conjunction with the company's annual financial statements for the year ended on December 31, 2025.
The accounting policies and calculation methods applied in these annual individual financial statements are the same as those applied in the Company's annual financial statements, namely the annual financial statements of the company, prepared as of December 31, 2025.
Certain explanatory notes are included to explain events and transactions that are significant to the understanding of the changes in the company's financial position and performance since the latest annual financial statements prepared as at and for the financial year ended on December 31, 2025.
The condensed interim financial statements were revised by an independent auditor.

2.2. Functional and presentation currency

The financial statements are presented in Romanian Lei (RON), which is also the Company's functional currency, as defined by IAS 21 " The Effects of Changes in Foreign Exchange Rates".
In accordance with applicable accounting regulations, all amounts are rounded to the nearest leu, unless otherwised stated.

2.3. Use of accounting estimates and professional judgments

The preparation of financial statements in accordance with International Financial Reporting Standards ("IFRS") requires management to use estimates, professional judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses.
Estimates and assumptions are continuously evaluated and are based on historical experience and other factors, including predictions of future events believed to be reasonable under the circumstances.
The results of these estimates form the basis for professional judgments regarding the carrying amounts of assets and liabilities that cannot be obtained from other information sources. Actual results may differ from these estimates.

Significant professional judgments used by management in applying the Company's accounting policies and the primary sources of estimation uncertainty were the same as those applied to the 2025 financial statements.

2.4. Foreign currency transactions

Foreign currency transactions are translated into the Company's functional currency using the exchange rate at the date of the transaction.
In the financial statements, values are presented rounded to units.
Monetary assets and liabilities in foreign currency at the reporting date are translated into the functional currency at the closing rate.
Foreign exchange differences are reflected in the Statement of Comprehensive Income.
Non-monetary assets and liabilities, presented at historical cost in foreign currency, are translated using the exchange rate at the date of the transaction.

As of September 30, 2026, and September 30, 2025, respectively, the official exchange rates used for translating foreign currency balances are:

Deferred tax liabilities and assets are calculated based on taxable and/or deductible temporary differences, determined for assets and liabilities as the difference between the carrying amount of the asset and/or liability and the amount attributed for tax purposes.
The Company recognizes deferred taxes as an expense or income, except for tax recognized in other comprehensive income or directly in equity because it relates to transactions that are recognized in other comprehensive income or directly in equity.

Deferred income tax is determined based on the tax rates (and legal regulations) enacted by the end of the reporting period and which are expected to apply in the period when the deferred tax asset is realized or the deferred tax liability is settled. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

As of September 30, 2026, the total value of deferred income tax recognized in equity is 32,140,147 lei and represents deferred income tax related to taxable revaluation reserves.

The intangible assets recorded in the Company's accounting records consist of IT software/licenses purchased from third parties; the concession of the operation activity of tanks, crude oil and petroleum product transport pipelines, pumping installations, and other related equipment and facilities concluded with the National Agency for Mineral Resources; other concessions representing internet domain registrations for Oil Terminal ("oilterminal.ro" and "oilterminal.com"); and other intangible assets representing OIL TERMINAL trademarks.

Following the analysis of the concession agreement approved by G.D. no. 886/16.08.2002 as of 31 December 2012, it was concluded that the conditions for recognizing the concession as an intangible asset were met in accordance with IAS 38 – Intangible Assets and the clarifications provided by IFRIC 12. As of 31 December 2012, based on a Valuation Report prepared by an authorized valuer (ANEVAR member), the "concession" intangible asset was recognized at a fair value of 3,034,941 lei. It was recorded with an indefinite useful life, pursuant to paragraph 88 of IAS 38, and is therefore not subject to depreciation.

As of 31 December 2023, the Company revalued its intangible assets based on a Valuation Report prepared by an authorized valuer (ANEVAR member). The frequency of revaluations depends on the changes in the fair values of the revalued intangible assets.

The company did not capitalize research and development expenses during the reporting period.

Fair value as of September 30, 2026 for intangible assets is as follows:

- Petroleum Agreement Concession 3,479,000 lei
- Other concessions - Trademarks 10,293 lei
- IT software / related licenses 1,491,718 lei

Effective 1 January 2019, the Company applied IFRS 16 "Leases", the standard which replaced IAS 17 "Leases" and all related interpretations (SIC/IFRIC). This resulted in the recognition of the right to use the underlying assets as an intangible asset in the "right-of-use assets" account and a liability in the "other loans and similar liabilities" account, resulting from lease contracts.
The major changes introduced by IFRS 16 relate to the accounting by lessees of the right-of-use of the underlying asset, specifically the recognition in the balance sheet of assets and liabilities related to the rights and obligations arising from lease contracts. The right-of-use asset is depreciated on a straight-line basis over the lease term. Since 1 January 2019, the Company has recognized depreciation expense for right-of-use assets and interest expense related to the lease liability. The interest rate was determined by the Company based on the cost the entity would incur to borrow on the market to use the underlying asset.
As of 31 December 2023, the Company revalued its right-of-use assets.
The fair value revaluation was recorded as of December 31, 2023 based on a Valuation Report prepared by an authorized valuer (ANEVAR member). The frequency of revaluations depends on the changes in the fair values of the revalued right-of-use assets. If the fair values of these assets do not undergo significant changes, revaluations are not necessary.
The Company acts as a lessee in 13 operating lease contracts, as described in Note 29.

* The own source for investment financing, derived from the realized revaluation surplus (capitalized in the account "Retained earnings representing realized revaluation surplus," symbol 1175, recorded in the company's accounting records in correspondence with the credit of the account "Other reserves – Development reserve fund," symbol 1068) was established as follows:

- on 30.04.2025, according to OGSM Resolution no. 10/28.04.2025, in the amount of 8,082,922 lei;
- on 31.08.2024, according to OGSM Resolution no. 9/12.08.2024, in the amount of 12,066,962 lei.

**Land area of 5,494 sqm, recognized in reserves, valued at 289,864 lei, representing the land difference resulting from the update of cadastral documentation carried out in 2015 for the land area of 951,386.79 sqm, registered in accordance with ownership title series MO3 no. 3285/19.11.1996, located in the South Storage Area.

b. Profit distribution

	September 30, 2026	Year ended December 31, 2025
Profit distribution, of which:	**-**	(4,139,185)
Legal reserves	-	(1,501,199)
Other reserves representing tax facilities	-	(2,637,986)

In Q1 2026, the profit distribution account was closed in accordance with the applicable accounting regulations. Consequently, as of September 30, 2026 this account carries no balance.
As of December 31, 2025, from the net profit of the year 2025, the profit distribution was recorded in the amount of 4,139,185 lei, representing:

- **1,501,199 lei legal reserve**,

According to the provisions of Art. 1, para. (1), let. a) of Government Ordinance no. 64/2001 regarding profit distribution in national companies and companies with full or majority state capital, correlated with Art. 183 para. (1) of Law no. 31/1990 on companies: "At least 5% shall be taken from the company's profit each year for the formation of the reserve fund, until it reaches at least one-fifth of the share capital". The legal reserve established before the 2025 net profit distribution was 8,910,913 lei (2.97% of the share capital).
Accounting profit before income tax = 30,023,988 lei.
Legal reserve (5% of gross profit) = 30,023,988 x 5 % = 1,501,199 lei.

- **2,637,986 lei other reserves, representing tax facilities provided by law.**

According to the provisions of art.1, para. (1), letter b) of Government Ordinance no.64/2001 regarding the distribution of profit in national companies, national and commercial companies with full or majority state capital, as well as in autonomous administrations, correlated with art. 22 para. (1) and para. (5) of Law no.

227/2015 regarding the Fiscal Code adopted by Law no.227/2015, as subsequently amended and supplemented, the profit invested in technological equipment, computers and peripheral equipment, cash registers, control and invoicing machines and devices, as well as in software, produced and/or acquired, including based on finance lease agreements, and put into operation, used for the purpose of carrying out economic activity, is exempt from tax. The tangible assets for which the tax exemption applies are those provided for in subgroup 2.1, respectively in class 2.2.9 of the Catalogue regarding the classification and normal useful lives of fixed assets, approved by Government decision. The assets used in production, processing activities and assets representing re-technologization are those established by order of the Minister of Finance.
The profit invested in 2024 is 2,776,827 lei.
The legal reserve of 5% of the tax-exempt profit is 2,776,827 lei x 5% = 138,841 lei.
The invested profit distributed to reserves is 2,637,986 lei (2,776,827 lei – 138,841 lei = 2,637,986 lei).

By the OGSM Resolution no.13/11.05.2026 the distribution of net profit related to 2025, in the amount of 26,914,656 lei (reinstated with the value of the provision established for the employee profit-sharing) as follows, was approved:

The major changes introduced by IFRS 16 "Leases" relate to the accounting for lessees regarding the right-of-use of the underlying asset, specifically the recognition in the statement of financial position (balance sheet) of assets and liabilities arising from lease contracts.
The right-of-use asset is depreciated on a straight-line basis over the lease term.
On January 1, 2019, the Company recognized the right-of-use assets as intangible assets in the "Right-of-use assets" account and a corresponding liability in "Other loans and lease liabilities", resulted from the lease contracts.
Starting January 1, 2019, the Company has recognized a depreciation expense for the right-of-use assets and an interest expense related to the lease liability.
The interest rate was determined by the Company based on the cost the entity would incur to borrow the funds necessary to obtain a similar asset.

The depreciation expense for the right-of-use assets recorded in 2026 amounts to 2,903,827 lei, while the

interest expense related to the lease liability recorded in 2026 is 716,211 lei.

In the cumulative period ended September 30, 2026 the following movements occurred regarding right-of-use assets:

1. On March 24, 2026: Derecognition of the right-of-use asset for lease contract no.40/82/09.02.2021, representing 1 pc WHEELED EXCAVATOR EQUIPPED WITH ATTACHMENTS - CAT M314.
2. On September 18, 2026: the company recognized the righ-of-use of the underlying assets representing 5 pcs Ford Transit Courier Utility Vehicles in the amount of 525,848 lei and a liability in amount of 525,848 lei, based on lease contract no. 112/245/14.08.2026 concluded with Center Tea&Co.

b) Provisions for employees benefits

	September 30, 2026	Year ended December 31, 2025
Balance at the beginning of the year	9,459,440	9,398,582
Additions during the year	-	3,004,864
Reversals during the year	(853,561)	(2,944,006)
Balance at the end of the period	**8,605,879**	**9,459,440**

The provision for employee benefits, in the balance as of December 31, 2025 was partially reversed during 2026, upon the granting of rights to employees at retirement. On that date, income from the reversal of provisions was recorded in the amount of 853,561 lei. As of September 30, 2026 the company records employee benefit provisions that have decreased by 853,561 lei compared to December 31, 2025.
This provision was recorded based on the Actuarial Report regarding the value of the provision for retirement benefits granted to employees, prepared by S.C. RCOR.RO SRL under the service agreement concluded with the company. According to the Collective Labor Agreement in force, the company must pay employees at retirement a benefit equal to a certain number of salaries, depending on their seniority and length of service within the company.
The main actuarial assumptions used to calculate the value of the provision for retirement benefits as of

December 31, 2025, were:

- Employee mortality is modeled using the mortality tables provided by the National Institute of Statistics;
- Employee turnover rate is constant over time, calculated by age and gender, established by modeling data provided by the company for recent years starting from 2000;
- Morbidity rate is constant over time, calculated by age and gender, incorporated into the mortality table used.
- Salary growth rate is constant over long periods, with an assumed annual increase of 4.1%;
- Discount rates are provided by the European Insurance and Occupational Pensions Authority (EIOPA) for Romania, without considering volatility;
- The plan is unfunded by the entity, employees, or third parties, except for early retirement, where the decision is influenced by the authorities.

c) Other provisions for tranches II-V related to retirement bonuses

	September 30, 2026	Year ended December 31, 2025
Balance at the beginning of the year	2,146,095	-
Additions during the year	651,568	2,146,095
Reversals during the year	(325,748)	-
Balance at the end of the period	**2,471,915**	**2,146,095**

The provision for tranches II-V related to retirement bonuses, amounting to 2,471,915 lei, is established in accordance with Art. LXXI para. (4) and (5) of Law no. 296/2023 on fiscal-budgetary measures for Romania's long-term financial sustainability. This stipulates that for collective/individual labor contracts of economic operators where the state or administrative-territorial units are sole or majority shareholders, in force as of 01.01.2025, retirement bonuses are granted in installments over 5 years in equal annual tranches.
Therefore, the first tranche is granted at the date of retirement, while a provision is established for tranches II-V, which will be paid over the following 4 years.

d) Other provisions for employee profit-sharing:

	September 30, 2026	Year ended December 31, 2025
Balance at the beginning of the year	2,277,547	1,490,991
Additions during the year	-	2,277,547
Reversals during the year	(2,277,547)	(1,490,991)
Balance at the end of the period	**-**	**2,277,547**

As of December 31, 2025, the company had recorded a provision for employee profit sharing for the year 2025 in the amount of 2,277,547 lei, based on Government Ordinance no.64/2001 regarding profit distribution in companies with full or majority state capital, as subsequently amended and supplemented, OMFP no.144/2005 regarding the approval of the Specifications for determining the amounts subject to profit distribution, and OMFP no.418/2005 regarding certain accounting specifications applicable to economic agents.
In July 2026, the company recorded the liability representing the employees' share of the 2025 profit, in accordance with the company's Ordinary General Meeting of Shareholders Resolution no.13/11.05.2026 approving the allocation of 2,227,547 lei from the net profit of 2025 for employee profit-sharing. Consequently, the provision recognized for employee profit-sharing was reversed for the amount of 2,277,547 lei and the employees' share for the 2025 profit was paid to the employees.

e) Other provisions related to mandate contracts

Other provisions related to mandate contracts represent the variable component for non-executive directors, the General Director, and the Financial Director:

	September 30, 2026	Year ended December 31, 2025
Balance at the beginning of the year	1,960,120	2,659,289

36. Cash flow information

Net cash flow from operating activities during 01.01.2026-30.09.2026 amounted to 51,195,237 lei, increasing compared to the period between 01.01.2025-30.09.2025 by the amount of 12,995,527 lei.
Cash flow from investing activities mainly includes payments for investments in fixed assets, amounting to (42,855,091) lei as of September 30, 2026 and (90,281,000) lei as of September 30, 2025.
Cash flow from financing activities primarily consists of cash inflows from long-term loans and cash outflows representing long-term loan repayments. Financing cash flow as of September 30, 2026 amounted to (9,846,304) lei, a decrease compared to the same period of the previous year of 35,863,877 lei. For the period between 01.01.2026-30.09.2026 cash inflows from loans were recorded at 25,790,581, a decrease compared to the period between 01.01.2025-30.09.2025 of 26,358,756 lei, while payments representing repayments of long-term loans and similar liabilities amounted to (18,681,200) lei in 2026 compared to (11,880,137) lei recorded in H1 2025.
Dividend payments in H1 2026 amounted to (16,950,965) lei and (10,135,898) lei during 01.01.2025-30.09.2025.
In 2026 and 2025, Oil Terminal did not use any supplier financing mechanisms; all payments were made by the company directly to the suppliers.

37. Risk management

Macroeconomic environment
The evolution of the Romanian economy in 2026 continued to be marked by persistent uncertainties regarding the continuation of the war in Ukraine and the conflict in the Middle East, as well as the uncertain outlook for European economies. The complex external environment is marked by challenges that exacerbate energy security vulnerabilities in Europe and could lead to a renewed increase in raw material prices. The international economic context continues to be characterized by a high level of uncertainty, while global recovery progresses at a slow and uneven pace.

The Company has implemented and developed a risk management process to facilitate the efficient and effective achievement of its objectives, aiming to reduce risks as much as possible without unduly affecting the competitiveness and flexibility of the Company's operations.

Through its operations, the Company is exposed to the following risks:

- Capital risk
- Credit risk
- Foreign exchange risk
- Liquidity risk
- Risks associated with achieving defined objectives
- Price risk
- Interest rate risk

a. Capital risk

Oil Terminal SA continuously manages its capital to ensure the optimal utilization of resources in correlation with risk exposure and to determine maximum returns for shareholders.
The structure of the employed capital consists of equity, which includes: share capital, other equity items, retained earnings representing the surplus realized from revaluation reserves, retained earnings representing undistributed profit, retained earnings resulting from the first-time application of IAS (excluding IAS 29), legal reserves, revaluation reserves, other reserves, the result of the year, and profit distribution, as presented in the Statement of Changes in Equity; and liabilities, which include the long-term loans presented in Note 28.
Capital risk management is an integral part of the company's business administration and refers to the continuous review of the company's leverage.
The leverage ratio, calculated as the ratio of short-term debt to equity, was 0.107 as of September 30, 2026 and 0.118 as of September 30, 2025.
The company's management reviews the capital structure as well as reports related to company risks. This review covers the cost of capital and the risks associated with each category of capital.

b. Credit risk

Credit risk is the risk of financial loss for the Company that arises if a customer or a counterparty to a financial instrument fails to meet its contractual obligations.
The Company is primarily exposed to credit risk arising from the provision of services to customers.
Annually, the content of the framework contracts regarding the provision of services for crude oil and other liquid petroleum products (diesel, gasoline, biodiesel for blending with diesel) is approved by Order of the National Regulatory Authority for Mining, Petroleum, and Geological Storage of Carbon Dioxide (ANRMPSG).
These contracts clearly state the commercial conditions for the services provided by the company to its customers:

- payment for executed services within a maximum of 30 days;
- calculation of accessories (penalties and late interest) for failure to make payments within contractual deadlines;
- in certain well-defined situations, the contract provides for the collection of revenue in advance;
- in case of non-payment of invoices within the term stipulated in the contract, the company has a right of lien over the transited goods up to the amount owed by the customer.

Although the collection of receivables may be influenced by economic factors, the company considers that there is no significant risk of loss exceeding the adjustments already recognized.

c. Foreign exchange risk

Foreign exchange risk arises when the Company enters into transactions denominated in a currency other than its functional currency. Foreign exchange risk depends on decision-making factors outside the company, namely the National Bank of Romania (BNR) policy regarding exchange rate evolution over a given period.
The company's exposure to foreign exchange risk expressed in RON is presented below:

September 30, 2026	Value lei	Value Euro	Value USD	Value GBP
Cash and cash equivalents	31,194	1,086	5,012	352
Foreign customers	3,346,369	633,962	0	0
Net exposure in the statement of financial position	**3,377,563**	**635,048**	**5,012**	**352**

Oil Terminal operates with foreign currency for international customers and is exposed to fluctuations in the EUR/RON exchange rate.

d. Liquidity risk

Liquidity risk arises from the company's management of working capital, financing costs, and the repayment of principal for its credit instruments.

The Company's policy is to ensure that it will always have sufficient cash to meet its financial obligations to third parties (suppliers of materials and services, employees, banks, state financial institutions, etc.) when those obligations become due.
To achieve this objective, the company has taken the following measures:

- monitoring collections within the contractual term;
- maintaining a cash balance that satisfies payment needs;
- preparing a weekly cash flow statement.

By applying the measures mentioned above, the company has sufficient liquid resources to honor its obligations under all reasonably foreseeable circumstances.
Liquidity indicators guarantee the coverage of current liabilities from current assets.
Current Liquidity is the ratio of current assets to current liabilities, recorded at 1.14 as of September 30, 2026 compared to 1.12 as of September 30, 2025.
Immediate Liquidity (Acid Test) is the ratio of current assets (excluding inventories) to current liabilities, with a value of 1.11 as of September 30, 2026 compared to 1.09 as of September 30, 2025.

e. Risks associated with achieving defined objectives

As of 30.09.2026, the Company continued the implementation, maintenance, and development of the internal managerial control system through the action lines of the "*Internal Managerial Control System Development Program for 2026".* This is regulated by the provisions of S.G.G. Order no. 600/2018 regarding the Approval of the Code of Internal Managerial Control of Public Entities, as well as the provisions of Government Ordinance no. 119/1999 on internal/managerial control and preventive financial control, republished, as subsequently amended and supplemented.

(1) According to the risk analysis and assessment carried out as of 30.06.2026, which remains valid as of 30.09.2026, a total of 120 risks were identified, analyzed, evaluated, and are currently managed at the company level. These are associated both with the specific objectives/activities/processes of the company's departments and with the objectives of the partial strategies derived from the company's development strategy, as follows:

- **104** risks at a "tolerable" level –**86.66 %**
- **12** risks at a "high tolerance" level –**10 %**
- **4** risks at a "low tolerance" level –**3.34 %**
- **0** risks at an "intolerable" level –**0 %**.

(2) From the critical analysis of the risks revised at the company level as of the reference date of June 30, 2026, an analysis that will remain valid and monitored until the next planned risk assessment scheduled for 31.12.2026, it is noted that at this stage, the following trends are manifest compared to both the previous assessment period and the approved risk tolerance level:

- increase in the total number of risks retained for management through the Company's centralized risk register. Therefore, in the risk assessment and reporting conducted as of the reference date June 30, 2026 a total of 120 risks are managed, compared to 119 risks managed as of December 31, 2025, following the identification and recording of 1 (one) risk by one of the company's functional departments;
- constant maintenance of the number of risks classified under the "*tolerable*" tolerance level, consistent with the risk assessment conducted as of December 31, 2025. Therefore, in the risk assessment and reporting as of June 30, 2026, 104 risks classified as "tolerable" are managed through the centralized risk register;
- constant maintenance of the number of risks classified under the "*high tolerance*" level, consistent with the risk assessment conducted as of December 31, 2025. Therefore, in the risk assessment and reporting as of June 30, 2026, 12 risks classified as "high tolerance" level are managed through the centralized risk register;
- increase in the number of risks classified under the "*low tolerance*" level, specifically, as of June 30, 2026, 4 risks classified as "low tolerance" level are managed, compared to 3 risks recorded in the previous assessment as of December 31, 2025, following the identification and recording of 1 (one) risk by one of the company's functional departments;
- no risks were identified or classified under the "*intolerable*" tolerance level.

(3) The analysis of the evolution and trend of residual risk exposure for the 120 risks retained for management as evidenced in the centralized Risk Register as of June 30, 2026, compared to the residual risk exposure recorded in the previous assessment on December 31, 2025, is presented as follows:

- 119 risks maintained a constant residual risk exposure compared to the previous assessment;
- As of June 30, 2026, no risks were recorded with an increased or decreased risk exposure compared to the previous assessment;
- As of June 30, 2026, following the risk analysis conducted across the Company's functional structures, it was proposed to introduce one new risk into the company's risk register.

(4) For effective risk management, the heads of the Company's functional structures, under the direct coordination of the senior Executive Management and the SCIM Monitoring Commission, have adopted and implemented risk strategies and managerial internal control measures deemed appropriate, timely, and effective. These were based on analyses, monitoring, evaluations, and risk documentation discussed within the risk management teams of each structure, aiming to eliminate causes and ensure all retained risks remain under control, preventing any impact on the achievement of defined objectives, and identifying premises for maintaining risk exposure strictly within the approved risk tolerance levels and limits.

(5) Upon performing the analysis and evaluation of the corruption risk management process at the Company level, as of the reference date June 30, 2026**,** *pursuant to the rules of the "System Procedure: Risk Management, code PS-02, Ed.II, R1"***,** the resulting risk profile and ranking of the exposure level for corruption risks, managed based on centralized risk documentation, in relation to the risk tolerance level and the set of ethical values and norms approved at the organizational level, are as follows:

- **38** corruption risks present a "*low exposure*" level –100%;
- **0** corruption risks at a "*medium exposure*" level –0%;
- **0** corruption risks at a "*high exposure*" level –0%;

Consequently, based on the data documented in the "*Corruption Risk Register of Oil Terminal S.A.*", following the consistent application and monitoring of the requirements of the "*Policy and Commitment of the Company Management and Risk Management Principles*" and the "*Methodology for Assessing Corruption Risks according to G.D. no. 599/2018*", and after the timely adoption of risk strategies and policy directions for the effective management of sensitive functions, as well as the implementation and monitoring of intervention and control measures established to prevent and minimize the materialization of corruption risks at the activity/process/personnel level, it is concluded that the corruption risk profile is constantly maintained and managed at a **"low exposure" level (100%)**.

f. Price risk

The company's exposure to price risk is monitored through management accounting and cost calculation activities, which include:

- the formation process of the company's production expenses;
- the grouping and behavior of expenses in relation to their generating factors;
- pre-setting the level and structure of costs for each service and for the total planned activity;
- the current analytical recording of production expenses by management periods and the calculation of indicators required by the cost accounting methods in use;
- the comparative analysis of the level and structure of production expenses and, implicitly, of the costs calculated based on them, serving to optimize decisions in managing the value-based aspect of the service performance.

Cost calculation forms the basis for setting service tariffs within the Company and represents the primary tool for prospecting, identifying, and mobilizing the Company's internal reserves.
By periodically tracking cost dynamics per conventional ton of product, a balance is ensured between the average cost per ton and the average revenue generated per the same unit of measure, ensuring that the services provided are efficient and value-adding.

g. Interest rate risk

To manage interest rate risk, the company's liabilities are permanently monitored regarding maturities, and the collection policy ensures the resources necessary for debt repayment.
Operational cash flows are affected by interest rate variations, primarily due to contracted long-term loans with variable interest rates.
The company has significant long-term variable-rate loans, which exposes it to cash flow interest rate risk.

38. Off-balance sheet items

As of September 30, 2026 the Company has the following items recorded in off-balance sheet accounts:

a. Crude oil, petroleum products, and chemical products inventories, owned by the company's customers, recorded as material values received for storage or custody, amounting to 317,083,174 lei;

- The budget execution results as of 30.09.2026,

during the Board of Directors meeting of 12.11.2026, Oil Terminal presents to the Board of Directors, for endorsement, the draft Amended Budget of Revenues and Expenses for the year 2026.

III. Information regarding the Labor Dispute

At company level, there was a Collective Labor Agreement applicable for the period 01.01.2024–31.12.2025, with an extension of its period of applicability for a duration of 6 months, namely until 30.06.2026 inclusive.
Following negotiations between the parties, OIL TERMINAL SA and OIL TERMINAL's Union, the Collective Labor Agreement (CCM) was concluded, registered with the Constanța Territorial Labor Inspectorate (ITM) under No.1248/02.07.2026, applicable during the period 02.07.2026-30.06.2028.
During the CCM negotiations, the parties discussed the possibility of a 6.5% salary indexation for the year 2026. Pursuant to Art. 8 para. (2) of the CCM, it was established that: the 6.5% indexation is conditional upon the approval of the Memorandum by the Government by 31.07.2026; the rejection or non-approval of the Memorandum by this date representing cause for mandatory revision of the wage clauses. On 24.08.2026, the Union notified the Company and the Constanța Territorial Labor Inspectorate regarding the initiation of the labor dispute. Conciliation took place at ITM Constanța without result.
The Union delivered the Decision to declare a strike as follows:
1. Warning strike on 30.10.2026, between 10:00 and 12:00, with work stoppage
2. General strike starting from 18.11.2026, for an indefinite period.
Given that during the Government meeting of 30.10.2026 the Memorandum regarding the increase in the company's salary-related expenditure by the amount of 1.752 million lei was approved—corresponding to a 6.5% salary increase for the period November–December 2026, in accordance with the provisions of GEO No. 89/24.12.2025 Art. XXXVI para. (2)—on 31.10.2026, the conciliation meeting for the labor dispute initiated by the Union took place. Attended by the employer's delegation and the union delegation, the parties agreed during this meeting on a 6.5% increase in the base salaries of the company's employees starting 01.11.2026, and acknowledged the settlement of the labor dispute. On 31.10.2026, Addendum No. 1 to the CCM was signed and subsequently registered with ITM Constanța under No. 1248/1 on 02.11.2026.
The notes numbered 1 to 41 are an integral part of the financial statements as of 30.09.2026, were issued by the company on 12.11.2026 and signed on its behalf by:

INDEPENDENT AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

To the shareholders,
OIL TERMINAL S.A. Constanta

Introduction

We have reviewed the attached simplified interim financial statements of OIL TERMINAL S.A. (the "Company") as of September 30, 2026, which include the statement of financial position, the statement of comprehensive income, the statement of cash flows, the statement of changes in equity and the notes to the simplified interim financial statements.
The company's management is responsible for the preparation and presentation of these simplified interim financial statements, prepared in accordance with International Accounting Standard 34 – "*Interim Financial* Reporting" adopted by the European Union.
It is our responsibility to reach a conclusion on these simplified interim financial statements based on our review.

Scope of the review

We conducted the review in accordance with the International Standard for Review Engagements 2410, "*Review of Interim Financial Statements by an Independent Auditor of the Entity*."
A review of the simplified interim financial statements consists of interviews, mainly of the persons responsible for financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is much smaller than the scope of an audit conducted in accordance with International Standards on Auditing and consequently does not allow us to obtain the assurance that we have discovered all the material aspects that could have been identified in an audit. Therefore, we do not express an audit opinion.

Conclusion

Based on our review, we have not identified any aspect that would lead us to believe that the attached interim financial information does not present, in all material respects, the financial position of the entity as at **30 September 2026** and its financial performance and cash flows for the nine-month period ended on that date, in accordance with International Accounting Standard 34 – "*Interim Financial Reporting*" adopted by the European Union.

3. COMPANY ACTIVITY ANALISYS

3.1. Operational Activity

3.1.1. Regulatory framework

The primary object of activity of Oil Terminal falls under NACE Code 5224 Cargo handling – provision of services regarding the receipt, loading, unloading of crude oil, petroleum products, petrochemicals, liquid chemicals, as well as other liquid finished products or raw materials for import, export, and transit.
The core operational activity of the company is mainly regulated by the provisions of Petroleum Law No. 238/2004 and the Petroleum Concession Agreement concluded with ANRM, approved by Government Decision No.886/2002.

3.1.2. Main activity

Elements impacting revenues - Tariffs
For services provided to clients, the company applies regulated tariffs (approved by Order of the ANRM President, pursuant to the Petroleum Concession Agreement concluded between the Agency and the Company, based on GD No. 886/2002) and non-regulated tariffs (approved in accordance with the provisions of the Company's Articles of Incorporation).

The regulated tariffs applied by the company during 01.01.2026 - 30.09.2026 for crude oil, diesel, biodiesel, and gasoline services are those approved under ANRM Order No. 343/18.12.2023, effective as of 01.01.2024, published in the Official Gazette, Part I, No.1159/21.12.2023.
Other tariffs applied by the company—specifically for fuel oil, chemical products, rents, and various laboratory analyses—are non-regulated tariffs, approved in accordance with the provisions of Art. 18, paragraph (4.1) of the Company's Articles of Incorporation.

3.1.3. Other activities

Other activities, accounting for a 2% share of the company's turnover, consist of leases of fixed assets, rail wagon shunting, sale of waste, etc.

3.1.4. Evaluation of operational performance

As of 30.09.2026 total revenues decreased by 2.9% and turnover by 2.8% compared to the 9-month period of 2025.

3.4. Other aspects

3.4.1. Uncertainties that may impact company liquidity

Credit risk is the risk of financial loss for the Company that arises if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. The Company is primarily exposed to credit risk arising from the provision of services to customers.
Liquidity risk arises from the company's management of working capital, financing costs, and the repayment of principal for its credit instruments.
The Company's policy is to ensure that it will always have sufficient cash to meet its financial obligations to third parties (suppliers of materials and services, employees, banks, state financial institutions, etc.) when those obligations become due.
To achieve this objective, the company has taken the following measures:

- monitoring collections within the contractual term;
- maintaining a cash balance that satisfies payment needs;
- preparing a weekly cash flow statement.

By applying the measures mentioned above, the company has sufficient liquid resources to honor its obligations under all reasonably foreseeable circumstances.
Liquidity indicators guarantee the coverage of current liabilities from current assets.
Current Liquidity recorded as of 30.09.2026 is 1.14 compared to 1.12 as of 30.09.2025.
Immediate Liquidity (Acid Test) as of 30.09.2026 is 1.11 compared to 1.09 as of 30.09.2025.

As of 30.09.2026, the Company records total liabilities in the amount of 311,290,056 lei.

Based on maturity, the total liabilities are presented as follows:

	Net value	Contract value	< 12 months	1-5 years	5-8 years	>8 years

[1] The deferred income tax related to the revaluation reserves as of 30.09.2026 recognized in equity, amounts to a total of 32,140,147 lei. The deferred tax was recorded in accordance with the provisions of IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors', recognized in equity through the account 'Retained earnings resulting from the correction of accounting errors".

3.4.2. Litigation

As of 30.09.2026 the company is involved in 131 litigations, of which 44 cases as plaintiff or contesting party, and 87 cases as defendant.

The company periodically analyses the situation of current litigations, and after consulting its legal advisors, decides on the necessity to create provisions for the amounts involved or for their presentation in the financial reports.
As of September 30, 2026, the Company has recognized provisions for litigations in the amount of 199,597 lei.

The current outstanding litigations are the following:

1. Case no. 11403/212/2011, pending before the Constanța Court, whereby the plaintiffs Iașar Ana, Iașar Tair, Iașar Doina, Iașar Sevinci, Iașar Islam, Iașar Esan, Iașar Ghiulgean and Iașar Sabria request to compel the defendants Oil Terminal S.A., Oil Prod SRL, Eco Petroleum S.A. to pay material damages in the amount of 30,000 lei and moral damages in the amount of 60,000 lei. By the ruling dated 26.06.2013 the court stayed the proceedings by operation of law pursuant to art. 36 of Law no. 85/2006, due to the entry into insolvency of Oil Prod SRL. Insolvency case of Oil Prod S.R.L. no. 2380/118/2013 with the hearing date of 03.02.2027 at the Constanța Tribunal. A provision of 90,000 lei was established for this case.

2. Case no.3656/118/2020, pending before the Giurgiu Tribunal, plaintiff Dumitrescu Sebastian Valentin, defendant Oil Terminal S.A. Action for the annulment of the Extraordinary General Meeting of Shareholders Resolution no. 4/12.06.2020 whereby the shareholders acknowledged the termination of the applicability of EGSM Resolution no. 6/10.10.2016, acknowledged the share capital increase of Oil Terminal S.A. by operation of law with the value of two land plots with areas of 254,261.325 sq.m. and 129,334.70 sq.m., respectively, subject of ownership title certificates series MO3, no. 11703/02.02.2011 and series MO3, no. 11704/02.02.2011, and approved the filing of a request to the delegated judge at the National Trade Register Office (O.N.R.C.) for the appointment of one or more experts to evaluate the two land plots to be included in the company's capital increase process. By the Judgment of 16.06.2021, pursuant to art. 412 para. 1 point 1 of the New Code of Civil Procedure (NCPC), the court noted the stay of the case by operation of law following the death of the plaintiff, until the heirs are joined in the case. With the right of appeal during the stay. Deadline for lapsing: 01.02.2023. At the hearing of 01.02.2023, the court admitted the plea regarding the lapsing of the main claim and of the connected complaints filed by the plaintiff Dumitrescu Sebastian Valentin against the defendants OIL TERMINAL S.A., as well as the interventions. Notes the case as lapsed. Compels the intervenor Dumitrescu Andrei Sebastian to pay the amount of 10,266.62 lei – court costs – in favor of the defendant company Oil Terminal S.A. With the right of appeal to the Constanța Court of Appeal within 5 days from the ruling. Dumitrescu Sebastian Andrei filed an appeal. Hearing date: 06.12.2023. On 14.12.2023, the High Court of Cassation and Justice ordered the transfer of the case from the Constanța Court of Appeal to the Bucharest Court of Appeal. On 29.02.2024, the Bucharest Court of Appeal, by Judgment 86/2024, Admits the appeal. Quashes in full the appealed civil sentence and sends the case to the Giurgiu Tribunal for further trial. On 03.10.2024, by Interlocutory Judgment, the court admits the request filed by the plaintiff Dumitrescu Andrei Sebastian and, pursuant to art. 29 para. 4 of Law no. 47/1992 republished, on the organization and functioning of the Constitutional Court, refers the case to the Constitutional Court of Romania with the plea of unconstitutionality regarding the provisions of art.32^2 para. 1 of Government Emergency Ordinance no. 88/1997 on the privatization of commercial companies and the provisions of art. 12 of Law no. 137/2002 on certain measures to accelerate privatization. Orders the communication of this interlocutory judgment to the Constitutional Court of Romania, accompanied by the request filed by Dumitrescu Andrei Sebastian, as well as the names/titles of the parties in the trial, including the necessary data for the summoning procedure, according to art. 29 para. 4 of Law no. 47/1992. No right of appeal. The court will officially communicate a copy of this judgment to the parties. To rule on the request for referral to the Court of Justice of the European Union (CJEU) for a preliminary ruling, the court postpones the ruling to 14.11.2024. Dismisses, as inadmissible, the request filed by the plaintiff Dumitrescu Andrei Sebastian for referral to the Court of Justice of the European Union, pursuant to art. 267 of the Treaty on the Functioning of the European Union (TFEU) and for the stay of the trial in the present case, according to art. 413 para. 1 point 1^1 of the Code of Civil Procedure. No right of appeal on 14.11.2024.
On 22.01.2026, the Giurgiu Tribunal admits the plea regarding the failure to pay the judicial stamp duty for the intervention request filed by Rometta Impex S.A., raised by the court ex officio at the hearing of 04.12.2020, and consequently, annuls the main intervention request as unstamped. Dismisses as unfounded the plea of lack of interest of the complaint, raised by the defendant OIL TERMINAL S.A. in the statement of defense filed in the case registered under no. 2900/118/2023, in which the plea of lis pendens was admitted. Dismisses as unfounded the plea of lack of standing raised by the Ministry of Economy, Digitalization, Entrepreneurship, and Tourism. III. Information regarding the Labor Dispute

At company level, there was a Collective Labor Agreement applicable for the period 01.01.2024–31.12.2025, with an extension of its period of applicability for a duration of 6 months, namely until 30.06.2026 inclusive.
Following negotiations between the parties, OIL TERMINAL SA and OIL TERMINAL's Union, the Collective Labor Agreement (CCM) was concluded, registered with the Constanța Territorial Labor Inspectorate (ITM) under No.1248/02.07.2026, applicable during the period 02.07.2026-30.06.2028.
During the CCM negotiations, the parties discussed the possibility of a 6.5% salary indexation for the year 2026. Pursuant to Art. 8 para. (2) of the CCM, it was established that: the 6.5% indexation is conditional upon the approval of the Memorandum by the Government by 31.07.2026; the rejection or non-approval of the Memorandum by this date representing cause for mandatory revision of the wage clauses. On 24.08.2026, the Union notified the Company and the Constanța Territorial Labor Inspectorate regarding the initiation of the labor dispute. Conciliation took place at ITM Constanța without result.
The Union delivered the Decision to declare a strike as follows:
1. Warning strike on 30.10.2026, between 10:00 and 12:00, with work stoppage
2. General strike starting from 18.11.2026, for an indefinite period.
Given that during the Government meeting of 30.10.2026 the Memorandum regarding the increase in the company's salary-related expenditure by the amount of 1.752 million lei was approved—corresponding to a 6.5% salary increase for the period November–December 2026, in accordance with the provisions of GEO No. 89/24.12.2025 Art. XXXVI para. (2)—on 31.10.2026, the conciliation meeting for the labor dispute initiated by the Union took place. Attended by the employer's delegation and the union delegation, the parties agreed during this meeting on a 6.5% increase in the base salaries of the company's employees starting 01.11.2026, and acknowledged the settlement of the labor dispute. On 31.10.2026, Addendum No. 1 to the CCM was signed and subsequently registered with ITM Constanța under No. 1248/1 on 02.11.2026.
