Important events to be reported: Commencement of construction of 99 MW wind park in Romania; signing of turbine supply and maintenance agreements with Vestas and EPC general contractor agreement with PORR

The management of Premier Energy PLC (hereinafter referred to as the "**Company**") informs the market that its Energia Mileniului III S.A. subsidiary in Romania has commenced the construction of its 99 MW wind park development near the town of Razboieni, Tulcea county, Romania.

The company has signed a Turbine Supply & Installation Agreement alongside a 20-year Service and Availability Agreement with Vestas CEU Romania S.R.L. for the construction and long-term maintenance of sixteen (16) V162 6.2 MW wind turbines, one of the best performing and most efficient wind turbines in the world. The company also signed an EPC general contractor agreement with PORR Construct S.R.L. for the design, engineering, building, testing and commissioning of the entire wind park.

Management estimates the total construction cost of the 99 MW wind park to be approximately €140 million with the plant becoming operational in late 2028 and producing approximately 260,000 to 290,000 MW of electricity per year.

Jose Garza, CEO
