I. Important events to report:

Death of the Chairman of the Board of Directors and Chief Executive Officer of TURBOMECHANICA S.A., Eng. Radu VIEHMANN

The Board of Directors of TURBOMECHANICA S.A. informs investors and the capital market that, on 9 May 2026, **Eng. Radu VIEHMANN**, Chairman of the Board of Directors and Chief Executive Officer of the Company, principal shareholder of TURBOMECHANICA S.A. with a stake of 25.92% of the share capital, has passed away.

Management continuity and operational impact

The Board of Directors assures the market that the activity of the Company will continue at its usual pace. In accordance with applicable legal provisions and the Articles of Association, the Board of Directors will convene an extraordinary meeting without delay for the purpose of

appointing a General Director, member and Chairman of the Board for the interim period, until the completion of the statutory procedures for the permanent appointment to the position.

A further current report will be published immediately upon the adoption of these decisions.

Tribute from the family and management of TURBOMECANICA S.A.

With boundless grief, the deeply bereaved family together with the management of TURBOMECANICA S.A. announces the passing into eternity of the one who was for decades our acknowledged, beloved and unconquered leader, the mentor and central pillar of our company,

Eng. Radu VIEHMANN

Chairman of the Board of Directors and Chief Executive Officer

Radu VIEHMANN was more than a leader; he was a visionary hopelessly in love with aviation, in whose service he devoted his entire life with talent, passion, dedication and conscientiousness.

A graduate of the Faculty of Aircraft Engineering in Bucharest (class of 1976), he was part of the elite generation that laid the foundations of excellence at TURBOMECANICA; his remarkable career, built with tenacity and professionalism, is inseparable from the history of TURBOMECANICA.

From 2006, as Chairman and Chief Executive Officer, he guided the company through periods of profound transformation. Under his leadership, TURBOMECANICA became a symbol of technical competence and integrity. A tireless fighter, Radu VIEHMANN always acted as a driver of innovation, bringing out the potential of every employee and securing the future of the company that was always a second family to him.

We all lose a man of rare integrity, a consummate specialist and a trusted partner, but his legacy lives on in each of us, in every helicopter and aircraft that takes to the skies of this country and in the values he instilled in this organisation — a legacy which, once again, we commit to preserving unchanged, to developing and to dedicating to the unwavering creed of the Chairman of TURBOMECANICA.

The Board of Directors of TURBOMECANICA S.A.,
